IN ITALY

for the best
SHOWROOM

Cordivari Design is the brand that identifies the artistic, research and development path of Cordivari group.

This concept explores the sphere of emotions and affectivity: a journey of passion and feelings that are reflected in the living space where every object, every element is expression of its personality. Cordivari Design radiators become in this way protagonists of the contemporary living.

The continuous research for technological solutions to enhance the efficiency of the radiators combined with the creativity of important designers working for Cordivari Design, create a perfect alchemy between functionality and style, able to give warmth and elegance to every living space.

THE COMPANY

Cordivari company is among the most important manufacturers of towel rails and radiators.

The orientation towards technological innovation and the use of state-of-the-art production processes make Cordivari a leader in the excellence of Made in Italy.

Thanks to robotised production processes and to a quality management system covering 100% of the production, Cordivari Design brand is today a synonym of elegance, comfort and innovation worldwide.

All production processes, cutting and metal working, welding, painting and quality tests are performed within Cordivari plants.

THE FACTORY

Awards and recognitions obtained over the years by Cordivari Design, become key points in the synergy between Design and technological innovation.

DESIGN HISTORY

Jean-Marie Massaud

Graduated from the ENSCI in 1990, Jean-Marie Massaud has run a research for synthesis, reduction and lightness since his first activities. He has been working in all kind of design fields, from furniture to industrial product and equipment. In 2000, he founds Studio Massaud and expands his expertise to architecture and brand development.

He collaborates with various brands such as B&B Italia, Axor Hansgrohe, Dedon, Lancôme or Renault. Denying trend and fashion, Jean-Marie prefers questioning the existing, working out on progress and eventually proposing answers to contemporary challenges. It is this symbiosis between Man, his creations and his natural environment, that Jean Marie Massaud strives to reach, as a catalyst to innovation, as an economic model and as a life project.

For Cordivari he projected Blow® radiator's design.

Simone Micheli

Professor at University, he founded in 1990 Architecture Studio and in 1993 the Project Company «Simone Micheli Architectural Hero». His architectural jobs, contract, interior design, exhibit, graphic and communication are linked to sensorial world.

He takes care of the most important exhibiting event and most qualified international Fair. His artworks are shown at the most important architectural and design Show all over the world. Many magazine are writing about his job.

He created Badge® and Sfere radiators for Cordivari, have been awarded with Design Plus, with Confort & Design and have been nomination at Ideo Bain Award, Ceramics Design Award, German Design Award Special Mention and Archiproducts Design Award - Best of Category.

Mariano Moroni

Architect, Artist and Designer. He was born in 1954 in Nereto (Teramo). After Artistic High School he graduated in architecture, and was licensed by Politecnico in Milan. Starting from 70s he attended many Exhibitions and Fairs in Italy and abroad. He has a wide-ranging and versatile mind, and he is involved in many creative activities from painting to architecture, from urban activity to graphic and design.

In 1999 he took part to a movie whose theme was rural architecture. His artworks are shown in public and private structures.

Cooperating with Cordivari, with mutual respect and estimation, he created Movie®, Renée, Jungle®, Raising®, Bridge®, Roads®, Roads® STF, Groove® and Giuly®.

Movie® wins the selection for the Comfort & Design award.

Giuly® wins the IF - Product Design Award of the International Forum Design in Hanover.

Beatrice De Sanctis

Young designer graduated from the European University of Design in 2017, then carries out an internship at the Cordivari company.

She works in an architectural firm and now attends the Pantheon Institute in Rome to earn a master's degree in Ecodesign.

She joins Cordivari thanks to a school project, the aim was to have a simple yet functional radiator. Thanks to this project, WINDOW was designed, winner of the IF Design Award 2020 and the Red Dot Award 2022."

Paola Pinnavaia

Paola Pinnavaia graduated at ISIA in Rome and won the European Design Award. She worked as industrial designer for Texas Instruments in Nice, Tokyo and Dallas. In 1994 she founded Studio ONdesign in Rome, putting at industries disposal her creativity, innovation, and methodological experiences she made Design being the propulsive heart of the industry.

She cooperated with many prestigious international companies.

She designed for Cordivari Rio® and Foglia® (winner of 2001 I.D. Award review Magazine, New York).

Luca Scacchetti

Luca Scacchetti (Milan 1952 - 2015).

In 1975 he graduated in Architecture at Milan Politecnico University.

Since 1976 he's teaching Architectonic Composition and since 1987 he's teaching Architectonic Projects at Architecture Department - European Design Institute in Milan. He is also teaching Architectural elements and Urbanistic at Artistic Accademy in Brera and at Design Department - Politecnico in Milan. He is cooperating in Design with many important Italian and international furnitures lighting and gifts industries.

For Cordivari he created Stradivari radiator.

ph: Paolo Carlini

Marco Pisati

Designer, fascinated by new materials and new technologies, tests his ideas in the most extreme sectors: starting from the aerospace, designing interiors bound to the concept of space habitability in absence of gravity for the ASI (Italian Space Agency), reaching the earth's nomadic one, realizing the first example of interactive nomadic office (Motorhome Aci).

Invited to expose his works at Leopolda Exposition in Florence ("Deep Inside"- Image) he presented with the company Grado Zero Espace, leading brand in the aerospace textile branch, a prototype of a jacket for astronauts in Diaplex (a tissue with a memory of shapes). He won the Special Mention in the 2017 German Design Awards in the Category Bath and Wellness with the "Color" product designed for Gattoni Rubinetteria.

At the end of 2020 the new Tessuto® radiator is presented, his new project created for Cordivari Design, which immediately distinguishes itself, for its technical and design contents and for the innovative solutions which makes it a product capable of enhancing the best projects of interior architecture.

Collaborating with Designers allows us to best express the synthesis of our research on the functionality, efficiency and sustainability of Cordivari Design solutions. This creates an alchemy and mutual contamination between form, space, volume and creativity.

DESIGNERS

INOX STYLE

Strong of half a century of experience, the company, has embraced the philosophy of stainless steel, making it available to Cordivari design.

In 1991 the first radiator made in stainless steel, model Elen, was created. Stainless steel is conquering every day larger and larger application in architecture and industrial design, not only thanks to its performances, but mainly for its visual lightness. The light reflection created by the polished stainless steel Cordivari design radiators, or the elegance of the satin finishing, guarantees a touch of exclusivity and prestige to your house.

Stainless steel is a 100% recyclable material, resistant to corrosion, non-toxic and with infinite lifetime.

EXTRASLIM®

Cordivari design offers a new concept of decorative radiator and with the support of important designers, creates the innovative "extraslim" range, a revolution of the design radiator world, thanks to a unique and state of the art production technology.

The result is a radiator consisting of a single heating body with an ultra-thin thickness, totally different from the traditional market offer, with geometries that go well beyond the traditional image of the radiator. The extraslim range, has been awarded with several international awards: Design Plus, Comfort & Design, Iazienka Award and Prix du Design ideobain nomination.

NEO DESIGN

Neo design radiators are involved in the artistic trend of "minimalism" that has greatly influenced contemporary design. Purity, simplicity of lines and architectural forms, are the elements that will make you appreciate these sober and elegant radiators.

Interior furnishing designed to create a perfect synthesis between aesthetics and functionality, enables great thermal efficiency in line with current standards of energy saving.

The neo design with its unique style becomes protagonist of contemporary living.

CLASSIC LINE

Retrò is the new line of Cordivari radiators, inspired by classical forms and elegant design.

With timeless shapes these decorative radiators are available with shiny and bright finishing to decorate your bathrooms with the most exclusive taste.

The Retrò line is available in 3 models with 3 different finishes: chrome, antique bronze, antique Gold.

GRAPHIC PICTURE

Heat and color. The picture radiators spreading the heating through beautiful colors and images, become the canvas of a painter or a frame upon which the most exciting impressions of your life are captured.

An innovative and everlasting painting process, internationally awarded, with high quality finishing and environment friendly approach. The radiator becomes a design object, an element that personalizes your living environment, making it a unique item, enriched by chromatic effects you can choose between graphic solutions proposed by Cordivari design, created by painters, artists, designers or by yourself with your favourite image, which will capture forever on the radiator your desired image.

ACCESSORIES | TECHNICAL SUPPORT

A big range of colors and Accessories completes our radiators offer: valves, towel rails, hooks polished, satin or painted to put an extra focus on the Cordivari Design. An expansion of knowledge of Cordivari's Design going from international rewards to events, from presentation of designers who signed Cordivari's Design Line up to the models that became beauty icons and state of the art projects.

A true support for all professionals for thermal output calculation, valves, electrical resistance, system and product certifications.

Rio®

satin stainless steel

design **Paola Pinnavaia**

Rio®, unique piece of art. Available in polished and satin stainless steel, draws its inspiration from nature; its gentle shape reminds a beautiful waterfall. The movements of the radiator give great energy sensations. Design tames the material, it's a thermal sculpture that let you feel true emotions. Sweet curves and harmonic waves of heating elements show a strict relationship between appearance anatomy and logic of the object.

Neo design radiators are involved in the artistic trend of “minimalism” that has greatly influenced contemporary design. Purity, simplicity of lines and architectural forms, are the elements that will make you appreciate these sober and elegant radiators. Interior furnishing designed to create a perfect synthesis between aesthetics and functionality, enables great thermal efficiency in line with current standards of energy saving. The neo design with its unique style becomes protagonist of contemporary living.

NEO DESIGN

Tessuto®

design by **Marco Pisati**

red dot winner 2022

Concept

Tessuto® was born from a reflection on the textures of fabrics, from the desire to reproduce the warp of a fabric on the surface of a vertical radiator. The Designer has imagined a series of enlarged metal filaments, put next to each other so to create a dense vertical pattern within a syncopated rhythm that creates an interesting play of lights and shadows. Other rhythms chase each other in an extremely varied image that creates a suggestive play of shadows and reflections.

Personality

Inspired by the screen-printing techniques of contemporary art and intentionally designed with an asymmetrical rhythm, Tessuto® can determine infinite rhythms and drawings.

Design flexibility

Tessuto® is an aluminum radiator with excellent thermal performances, which offers the possibility of being made in multiple sizes in width and height, allowing architects great flexibility in planning.

Lightness

The project was developed with a system of minimalist accessories, characterized by a sign that expresses extreme lightness. Shelves and hanging bars integrate perfectly with the design of the radiator, so much to become a “unique” with the product itself. The free coupling system allows you to arrange the accessories along the entire vertical axis.

Tessuto[®]

design by **Marco Pisati**

Tessuto[®] is the new and refined radiator inspired by the beauty of classical art and shaped by the most rigorous lines of contemporary design. Unique and surprising in any environment, it was born to give warmth, comfort and elegance through his ability to be himself in an ever new way.

Window®

design by **Beatrice De Sanctis**

reddot winner 2022

Window® is the new Cordivari Design radiator, born from the collaboration with the European University of Design of Pescara, very active in the creative sectors of Design, graphics and fashion. The partnership was born from the desire to promote the creativity and ideas of young designers, still free from any technical and artistic limitations.

BRAINSTORMING

Through brainstorming, an innovative approach to Design is prepared, without preventive censorship. Immediately after the brainstorming a critical analysis of ideas opens up, to define the concept on which it will be decided to work.

SKETCHES

The sketch phase is used to look for the form that best manages to respect the conceptual idea that emerged from the brainstorming. In this phase the designer has full expressive and formal liberty with the sole constrain of the concept to be respected.

Window[®]

design by **Beatrice De Sanctis**

red**dot** winner 2022

The project has innovative features such as modularity, three-dimensionality, personalization and ergonomics that amplify the value of the product design.

Window is a radiator with strong contemporary notes, with simple and clean lines that are integrated in a modern and refined style. The frame, in addition to give a chromatic movement, adds a three-dimensional inspiration to the radiator, becoming a practical integrated towel holder. An accessory that can be opened and used as needed with a simple gesture. Made of colored steel, Window offers a wide range of customization and adaptability to any bathroom environments.

TECHNICAL DRAWINGS

Once formally defined, the sketch must be sized through the use of a standard technical language. In this phase, precision and detail of the technical drawing are required. This phase relates to the methods and to eventual production and industrialization constraints.

Heat and color. The picture radiator spreading the heat through beautiful colors and images, becomes the canvas of a painter or a frame upon which the most exciting impressions of your life are captured.

An innovative and everlasting painting process, internationally awarded, with high quality finishing and environment friendly approach. The radiator becomes a design object, an element that personalizes your living environment, making it a unique item, enriched by chromatic effects you can choose between graphic solutions proposed by Cordivari design, created by painters, artists, designers or by yourself with your favourite image, which will capture forever on the radiator your desired image.

10 YEARS WARRANTY

MATERIAL:

Vertical collectors in satin stainless steel with $\varnothing$ of 38 mm.
Curved heating elements in satin stainless steel 30x10 mm.

FIXING KIT:

Brackets, airvent, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.
The fixing kit is compliant with VDI 6036 norm, class 4.

PACKAGING:

The radiator is protected by a recyclable film in polyethylene and with a carton box. Use and maintenance notice included.

FEATURES:

It is totally made in stainless steel with an unalterable finishing guaranteed during the years.
Thermal outputs certified in accredited laboratories in compliance with European norm EN442.

POLISHED STAINLESS STEEL

PAGE 42

10 YEARS WARRANTY

MATERIAL:

Vertical collectors in polished stainless steel with $\varnothing$ of 38 mm.
Horizontal heating elements in polished stainless steel with $\varnothing$ of 18 mm.

FIXING KIT:

Brackets, airvent, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.
The fixing kit is compliant with VDI 6036 norm, class 4.

PACKAGING:

The radiator is protected by a film in polyethylene and with a carton box.
Use and maintenance notice included.

FEATURES:

It is totally made in stainless steel with an unalterable finishing guaranteed during the years.
Thermal outputs certified in accredited laboratories in compliance with European norm EN442.
Models are NF certificate, except width 400 mm.

EUROPEAN WARRANTY

MATERIAL:

Vertical collectors in polished stainless steel with Ø of 38 mm.
Horizontal heating elements in polished stainless steel with Ø of 18 mm.
Glycolate water.

FIXING KIT:

Brackets, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.
The fixing kit is compliant with VDI 6036 norm, class 4.

PACKAGING:

The radiator is protected by a film in polyethylene and with a carton box. Use and maintenance notice included.

FEATURES:

It is totally made in stainless steel with an unalterable finishing guaranteed during the years.

PRODUCT CERTIFICATES

Electrical resistors: CLASS 1

Minimum class protection: IP 44

Seasonal energy efficiency η_s : $\geq 38\%$

Wire Length: 1200 mm with Schuko plug

Electrical only: with digital thermostat and remote control

HOW TO PLACE ELECTRIC RADIATORS

The national rules on installing electrical equipment in the bathroom must be scrupulously respected. The electric radiators must be always installed outside zone 1 and 2. In particular the electric switch and control elements must be mandatorily located in zone 3, in order that no electrical control center is accessible to anyone using the shower or bath.

All Cordivari electric radiators are in line with the new European regulation UE 2015/1188. The new regulation imposes a seasonal energy efficiency of electrical appliances for ambient heating with a nominal thermal output over 250 W and not less than 38%.

The seasonal energy efficiency of ambient heating (η_s) is expressed with the ratio between the demand of ambient heating supplied by a heating appliance and the annual energy consumption required to meet this demand, expressed as percentage. The Cordivari ErP is in line with the new Ecodesign directives, which are characterized by a great efficiency combined with the maximum attention to energy saving. In particular the radiators are at least equipped with: electronic temperature control; open window sensor; weekly program timer.

Thanks to the new fully programmable digital thermostats and sensors present on the radiators, now the new Cordivari ErP electric radiators, heat, efficiency and energy saving are the best allies of your comfort.

INCLUDED

Remote control for top digital thermostat

MAIN FEATURES AND FUNCTIONS:

CRONO: function of chrono-thermostat with daily or weekly programming with two temperature levels (Comfort/Eco)

COMFORT: Possibility of setting your own desired temperature for time slot for higher comfort

ECO: Possibility of keeping the temperature constant with lower power consumption. Useful for energy saving when the room is not occupied.

ANTI-FREEZE: Useful if the room is not used for long periods

TIMER/BOOST: Useful to heat rapidly the room and dry towels thanks to 2h of forced march at max. Power.

CHILD SAFETY LOCK: special purpose lock of the display panel so to avoid any accidental alteration

REMOTE CONTROL: The digital thermostat is equipped with an infrared remote control, useful to manage all the aforementioned functions.

Accessories and spare parts - see from page 394.

EUROPEAN WARRANTY

MATERIAL:

Vertical collectors in polished stainless steel with $\varnothing$ of 38 mm.
Horizontal heating elements in polished stainless steel 30x10 mm.
Glycolate water.

FIXING KIT:

Brackets, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.
The fixing kit is compliant with VDI 6036 norm, class 4.

PACKAGING:

The radiator is protected by a film in polyethylene and with a carton box.
Use and maintenance notice included.

FEATURES:

It is totally made in stainless steel with an unalterable finishing guaranteed during the years.

PRODUCT CERTIFICATES

Electrical resistors: CLASS 1

Minimum class protection: IP 44

Seasonal energy efficiency η_s : $\geq 38\%$

Electrical only: with digital thermostat and remote control

Wire Length: 1200 mm with Schuko plug

HOW TO PLACE ELECTRIC RADIATORS

The national rules on installing electrical equipment in the bathroom must be scrupulously respected.
The electric radiators must be always installed outside zone 1 and 2.
In particular the electric switch and control elements must be mandatorily located in zone 3, in order that no electrical control center is accessible to anyone using the shower or bath.

All Cordivari electric radiators are in line with the new European regulation UE 2015/1188. The new regulation imposes a seasonal energy efficiency of electrical appliances for ambient heating with a nominal thermal output over 250 W and not less than 38%.

The seasonal energy efficiency of ambient heating (η_s) is expressed with the ratio between the demand of ambient heating supplied by a heating appliance and the annual energy consumption required to meet this demand, expressed as percentage. The Cordivari ErP is in line with the new Ecodesign directives, which are characterized by a great efficiency combined with the maximum attention to energy saving. In particular the radiators are at least equipped with: electronic temperature control; open window sensor; weekly program timer.

Thanks to the new fully programmable digital thermostats and sensors present on the radiators, now the new Cordivari ErP electric radiators, heat, efficiency and energy saving are the best allies of your comfort.

INCLUDED

Remote control for top digital thermostat

MAIN FEATURES AND FUNCTIONS:

CRONO: function of chrono-thermostat with daily or weekly programming with two temperature levels (Comfort/Eco)

COMFORT: Possibility of setting your own desired temperature for time slot for higher comfort

ECO: Possibility of keeping the temperature constant with lower power consumption. Useful for energy saving when the room is not occupied.

ANTI-FREEZE: Useful if the room is not used for long periods

TIMER/BOOST: Useful to heat rapidly the room and dry towels thanks to 2h of forced march at max. Power.

CHILD SAFETY LOCK: special purpose lock of the display panel so to avoid any accidental alteration

REMOTE CONTROL: The digital thermostat is equipped with an infrared remote control, useful to manage all the aforementioned functions.

Accessories and spare parts - see from page 394.

EUROPEAN WARRANTY

MATERIAL:

Super slim heating body in painted mild steel.

FIXING KIT:

Brackets, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.

The fixing kit is compliant with VDI 6036 norm, class 4.

PACKAGING:

The radiator is protected by a film in polyethylene and with a carton box. Use and maintenance notice included.

PAINTING PROCESS:

Painted with ecological epoxy. (Certificate DIN 55900-1,-2).

COLORS:

Radiators and accessories: standard white R01 color.

For other colors price has to be increased by 30%. See page 416.

HOW TO PLACE ELECTRIC RADIATORS

The national rules on installing electrical equipment in the bathroom must be scrupulously respected. The electric radiators must be always installed outside zone 1 and 2. In particular the electric switch and control elements must be mandatorily located in zone 3, in order that no electrical control center is accessible to anyone using the shower or bath.

All Cordivari electric radiators are in line with the new European regulation UE 2015/1188. The new regulation imposes a seasonal energy efficiency of electrical appliances for ambient heating with a nominal thermal output over 250 W and not less than 38%.

The seasonal energy efficiency of ambient heating (η_s) is expressed with the ratio between the demand of ambient heating supplied by a heating appliance and the annual energy consumption required to meet this demand, expressed as percentage. The Cordivari ErP is in line with the new Ecodesign directives, which are characterized by a great efficiency combined with the maximum attention to energy saving. In particular the radiators are at least equipped with: electronic temperature control; open window sensor; weekly program timer.

Thanks to the new fully programmable digital thermostats and sensors present on the radiators, now the new Cordivari ErP electric radiators, heat, efficiency and energy saving are the best allies of your comfort.

All Cordivari electric radiators are in line with the new European regulation UE 2015/1188. The new regulation imposes a seasonal energy efficiency of electrical appliances for ambient heating with a nominal thermal output over 250 W and not less than 38%.

The seasonal energy efficiency of ambient heating (η_s) is expressed with the ratio between the demand of ambient heating supplied by a heating appliance and the annual energy consumption required to meet this demand, expressed as percentage. The Cordivari ErP is in line with the new Ecodesign directives, which are characterized by a great efficiency combined with the maximum attention to energy saving. In particular the radiators are at least equipped with: electronic temperature control; open window sensor; weekly program timer.

Thanks to the new fully programmable digital thermostats and sensors present on the radiators, now the new Cordivari ErP electric radiators, heat, efficiency and energy saving are the best allies of your comfort.

5 YEARS WARRANTY

MATERIAL:

Super slim heating body in painted mild steel.

FIXING KIT:

Brackets, airvent, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.

The fixing kit is compliant with VDI 6036 norm, class 4.

VALVE KIT INCLUDES:

Valves (STANDARD VERSION)

Valves with thermostatic head (CONTROL VERSION)

Fittings for copper pipe (Ø 12/14/15)

Fittings for multilayer pipe (Ø 16 x2)

PACKAGING:

The radiator is protected by a film in polyethylene and with a carton box. Use and maintenance notice included.

PAINTING PROCESS:

Painted with ecological epoxy. (Certificate DIN 55900-1,-2).

Thermal outputs certified in accredited laboratories in compliance with European norm EN442.

COLORS:

Radiators and accessories: standard white R01 color.

For other colors price has to be increased by 30%. See page 416.

HOW TO PLACE ELECTRIC RADIATORS

The national rules on installing electrical equipment in the bathroom must be scrupulously respected. The electric radiators must be always installed outside zone 1 and 2.

In particular the electric switch and control elements must be mandatorily located in zone 3, in order that no electrical control center is accessible to anyone using the shower or bath.

EACH RADIATOR IS UNIQUE

Each Tessuto radiator is unique, the image is always similar to the original but the rhythm is always different, resulting in infinite rhythms and designs. The assembly of the elements involves random combinations of the motif that makes each radiator a "unique" piece different from the others.

WINDOW®

design **Beatrice De Sanctis**

PAGE **122**

5 YEARS WARRANTY

MATERIAL:

Heating body and handle in ultra-thin painted mild steel.

FIXING KIT:

Brackets, airvent, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.

The fixing kits are compliant with VDI 6034 norm, class 4.

FEATURES:

The exclusive design of the Window towel warmer combines aesthetics and functionality.

The heated handle can be extracted, acting as support for warming the towels. The opening and closing of the handle are manually operated. Window has been designed to offer maximum comfort of use by differentiating the temperature of the handle from that of the body.

The temperature of the handle is kept lower than that of the radiator body, so to allow a safe grip without sacrificing the maximum heat output provided by the radiator body at the normal operating temperatures of the heating system.

VALVE KIT INCLUDES:

Square valve kit including chromed thermostatic head

Fittings for copper pipe (Ø 12/14/15)

Fittings for multilayer pipe (Ø 16 x2)

PACKAGING:

The radiator is protected with a film in polyethylene and cardboard box. Use and maintenance notice included.

PAINTING PROCESS:

Painted with ecological epoxy. (Certificate DIN 55900-1,-2). Thermal outputs certified in accredited laboratories in compliance with European norm EN442.

COLORS:

Radiators and accessories: standard white R01 color.

For other colors price has to be increased by 30%. See page 416.

For the two-color versions the price is shown in the table.

P. max: 5 bar

HOW TO PLACE ELECTRIC RADIATORS

The national rules on installing electrical equipment in the bathroom must be scrupulously respected. The electric radiators must be always installed outside zone 1 and 2.

In particular the electric switch and control elements must be mandatorily located in zone 3, in order that no electrical control center is accessible to anyone using the shower or bath.

FRAME® INOX

HORIZONTAL

PAGE 132

5 YEARS WARRANTY

MATERIAL:

Vertical collectors in painted mild steel with $\varnothing$ of 30 mm
Heating elements in painted mild steel
Heating plate in polished stainless steel

FIXING KIT:

Brackets, airvent, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.
The fixing kit is compliant with VDI 6036 norm, class 4.

PACKAGING:

The radiator is protected by a film in polyethylene and with a carton box.
Use and maintenance notice included.

FEATURES:

Heating plate is totally made in stainless steel with an unalterable finishing.
Brightness guaranteed during the years.

PRODUCT CERTIFICATES

P. max: 5 bar

T. max: 110° C

Available for central heating systems

Connections: n° 2 x G 1/2" - n° 1 x G 1/2"

FRAME® INOX DECOR X04

VERTICAL

artwork **Mariano Moroni**

PAGE **136**

5 YEARS WARRANTY

MATERIAL:

Horizontal collector in painted mild steel with $\varnothing$ of 30 mm
Heating elements in painted mild steel
Heating plate in stainless steel with satin decor on polished background

FIXING KIT:

Brackets, airvent, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.
The fixing kit is compliant with VDI 6036 norm, class 4.

PACKAGING:

The radiator is protected by a film in polyethylene and with a carton box.
Use and maintenance notice included.

FEATURES:

Heating plate is totally made in stainless steel with an unalterable finishing.
Brightness guaranteed during the years.

PRODUCT CERTIFICATES

P. max: 5 bar

T. max: 110° C

Available for central heating systems

Connections: n° 2 x G 1/2" - n° 1 G 1/8"

HOW TO ORDER THE VERTICAL FRAME INOX DECOR X04 RADIATORS

Art. Nr. and price are referred to WHITE R01 color version. For other colors price has to be increased by 30%.

For output at different Δt than 50°C, please refer to the following formula = desired output = output at Δt 50°C x (desired Δt/50)ⁿ

FRAME MAX VERTICAL

PAGE 142

5 YEARS WARRANTY

MATERIAL:

Horizontal collector in painted mild steel with $\varnothing$ of 30 mm
Heating elements in painted mild steel
Heating plate in painted mild steel

FIXING KIT:

Brackets, airvent, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.

PACKAGING:

The radiator is protected by a film in polyethylene and with a carton box.
Use and maintenance notice included.

PAINTING PROCESS:

Painted with ecological epoxy. (Certificate DIN 55900-1,-2).
Thermal outputs certified in accredited laboratories in compliance with European norm EN442.

COLORS:

Radiators and accessories: standard white R01 color.
For other colors price has to be increased by 30%. See page 416.

PRODUCT CERTIFICATES

P. max: 5 bar

T. max: 110° C

Available for central heating systems

Connections: n° 2 x G 1/2" - n° 1 x G 1/8"

FRAME® INOX ELECTRIC

PAGE 154

EUROPEAN WARRANTY

MATERIAL:

Horizontal collector in painted mild steel with $\varnothing$ of 30 mm
Heating elements in painted mild steel
Heating plate in polished stainless steel
Glycolate water

FIXING KIT:

Brackets, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.
The fixing kit is compliant with VDI 6036 norm, class 4.

PACKAGING:

The radiator is protected by a film in polyethylene and with a carton box.
Use and maintenance notice included.

FEATURES:

Heating plate is totally made in stainless steel with an unalterable finishing.
Brightness guaranteed during the years.

PRODUCT CERTIFICATES

Electrical resistors: CLASS 1

Minimum class protection: IP 44

Seasonal energy efficiency η_s : $\geq 38\%$

Wire Length: 1200 mm with Schuko plug

Electrical only: with digital thermostat and remote control

HOW TO PLACE ELECTRIC RADIATORS

The national rules on installing electrical equipment in the bathroom must be scrupulously respected.
The electric radiators must be always installed outside zone 1 and 2.
In particular the electric switch and control elements must be mandatorily located in zone 3, in order that no electrical control center is accessible to anyone using the shower or bath.

All Cordivari electric radiators are in line with the new European regulation UE 2015/1188. The new regulation imposes a seasonal energy efficiency of electrical appliances for ambient heating with a nominal thermal output over 250 W and not less than 38%.

The seasonal energy efficiency of ambient heating (η_s) is expressed with the ratio between the demand of ambient heating supplied by a heating appliance and the annual energy consumption required to meet this demand, expressed as percentage. The Cordivari ErP is in line with the new Ecodesign directives, which are characterized by a great efficiency combined with the maximum attention to energy saving. In particular the radiators are at least equipped with: electronic temperature control; open window sensor; weekly program timer.

Thanks to the new fully programmable digital thermostats and sensors present on the radiators, now the new Cordivari ErP electric radiators, heat, efficiency and energy saving are the best allies of your comfort.

INCLUDED

Remote control for top digital thermostat

MAIN FEATURES AND FUNCTIONS:

CRONO: function of chrono-thermostat with daily or weekly programming with two temperature levels (Comfort/Eco)
COMFORT: Possibility of setting your own desired temperature for time slot for higher comfort
ECO: Possibility of keeping the temperature constant with lower power consumption. Useful for energy saving when the room is not occupied.
ANTI-FREEZE: Useful if the room is not used for long periods
TIMER/BOOST: Useful to heat rapidly the room and dry towels thanks to 2h of forced march at max. Power.
CHILD SAFETY LOCK: special purpose lock of the display panel so to avoid any accidental alteration
REMOTE CONTROL: The digital thermostat is equipped with an infrared remote control, useful to manage all the aforementioned functions.

MATERIAL:

Horizontal collector in painted mild steel with $\varnothing$ of 30 mm
Heating elements in painted mild steel
Heating plate in polished stainless steel
Glycolate water

FIXING KIT:

Brackets, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.
The fixing kit is compliant with VDI 6036 norm, class 4.

ELECTRIC MODULE FOR VENTILATED FUNCTION:

Power 1000 Watt - 230 V 50 Hz | ON/OFF Switch | Temperature setting: +10°C to + 30°C.

PACKAGING:

The radiator is protected by a film in polyethylene and with a carton box.
Use and maintenance notice included.

FEATURES:

Heating plate is totally made in stainless steel with an unalterable finishing.
Brightness guaranteed during the years.

PRODUCT CERTIFICATES

Electrical resistors: CLASS 2

Minimum class protection: IP 24

Seasonal energy efficiency η_s : $\geq 38\%$

Wire Length: 800 mm with Schuko plug

Available electric resistances: with BLOWER electric module for the ventilated function

The "Blower" electric module for ventilated function is supplied in grey color.

ELECTRIC MODULE FOR VENTILATED FUNCTION:

- Ultra-discrete: The controller on the back of the radiator is aesthetically invisible
- Excellent ergonomic settings
- "Intelligent" electronic control: stable and accurate temperature throughout the year
- Energy saving package
- Super comfort mode (automatic boost): instantaneous heating, the hot air blower allows an automatic and rapid increase of the ambient temperature, following ECO, Antifreeze or Standby periods
- Reduced thickness behind the radiator
- Active memory: time and settings are saved by the EEPROM if the main electricity supply is interrupted.

All Cordivari electric radiators are in line with the new European regulation UE 2015/1188. The new regulation imposes a seasonal energy efficiency of electrical appliances for ambient heating with a nominal thermal output over 250 W and not less than 38%.

MIXED OPERATION FRAME BLOWER

An essential geometric shape that satisfies the tastes of the most contemporary design, is supported by the performances of a very powerful bathroom radiator and a fan heater integrated into the radiator but totally independent from its main function.

In fact, a Blower module is integrated into the traditional Frame radiator, which allows to quickly heat even medium / large rooms, for maximum comfort, even when the main heating system is off. This possibility of use is ideal in mid-seasons or whenever extra comfort is desired for the bathroom.

All Cordivari electric radiators are in line with the new European regulation UE 2015/1188. The new regulation imposes a seasonal energy efficiency of electrical appliances for ambient heating with a nominal thermal output over 250 W and not less than 38%.

HOW TO PLACE ELECTRIC RADIATORS

The national rules on installing electrical equipment in the bathroom must be scrupulously respected. The electric radiators must be always installed outside zone 1 and 2.

In particular the electric switch and control elements must be mandatorily located in zone 3, in order that no electrical control center is accessible to anyone using the shower or bath.

All Cordivari electric radiators are in line with the new European regulation UE 2015/1188. The new regulation imposes a seasonal energy efficiency of electrical appliances for ambient heating with a nominal thermal output over 250 W and not less than 38%.

The seasonal energy efficiency of ambient heating (η_s) is expressed with the ratio between the demand of ambient heating supplied by a heating appliance and the annual energy consumption required to meet this demand, expressed as percentage. The Cordivari ErP is in line with the new Ecodesign directives, which are characterized by a great efficiency combined with the maximum attention to energy saving. In particular the radiators are at least equipped with: electronic temperature control; open window sensor; weekly program timer.

Thanks to the new fully programmable digital thermostats and sensors present on the radiators, now the new Cordivari ErP electric radiators, heat, efficiency and energy saving are the best allies of your comfort.

INCLUDED

Remote control for top digital thermostat

MAIN FEATURES AND FUNCTIONS:

CRONO: function of chrono-thermostat with daily or weekly programming with two temperature levels (Comfort/Eco)

COMFORT: Possibility of setting your own desired temperature for time slot for higher comfort

ECO: Possibility of keeping the temperature constant with lower power consumption. Useful for energy saving when the room is not occupied.

ANTI-FREEZE: Useful if the room is not used for long periods

TIMER/BOOST: Useful to heat rapidly the room and dry towels thanks to 2h of forced march at max. Power.

CHILD SAFETY LOCK: special purpose lock of the display panel so to avoid any accidental alteration

REMOTE CONTROL: The digital thermostat is equipped with an infrared remote control, useful to manage all the aforementioned functions.

TOP DIGITAL THERMOSTAT

The general footprint has to be calculated considering the thermostat height.

Art. Nr. and price are referred to WHITE R01 color version. For other colors price has to be increased by 30%.

For output at different Δt than 50°C , please refer to the following formula = desired output = output at $\Delta t 50^{\circ}\text{C}$ x (desired $\Delta t/50$)ⁿ

ROADS® STF

design **Mariano Moroni**

PAGE **182**

PATENTED

5 YEARS WARRANTY

MATERIAL:

Aluminium heating elements 100x30 mm.

FIXING KIT:

Brackets, airvent, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.

PACKAGING:

The radiator is protected by a film in polyethylene and with a carton box. Use and maintenance notice included.

PAINTING PROCESS:

Painted with ecological epoxy. (Certificate DIN 55900-1,-2). Thermal outputs certified in accredited laboratories in compliance with European norm EN442.

COLORS:

Radiators and accessories: standard white R01 color. For other colors price has to be increased by 30%. See page 416.

PRODUCT CERTIFICATES

P. max: 6 bar

T. max: 110° C

Available for central heating systems

Connections: n° 2 x G 1/2" - n° 1 x G 1/2"

MACRO NATURAL

The energy of nature

Nature escapes us yet we feel the daily need to lead us back to it: more and more often the architectural and environments are pervaded by greenery, plant walls or other spaces designed specifically to welcome it and make it an integral part of our life. Different housing trends have been influenced by it, defined as "eco-style" or "eco-chic", which aim at the integration of colors, objects, and natural materials within the environments to make them warmer and less artificial. This is how finishes, architectural forms, chromatic tones, walls and furnishing accessories are inspired or sometimes imitating the world of a hidden and wonderful nature that always offers great charm to the observer.

The Frame Trends Macro Natural line is inspired by this trend and with its three versions nature enters the environment giving you a unique and relaxing style.

MATERIA

Vintage style

It represents the evolution of the industrial style, merged with the trail that the strong vintage trend has left. However, everything is revisited in a more neutral key, where the protagonists are the materials, left raw and unfinished to create a strong contrast with the furnishing objects placed inside. The interiors are real scenographies with strong suggestions, which seem places recovered from the past, but combined with modern furnishing elements and often heterogeneous in style. Walls and wall finishes imitate raw concrete, often combined with surfaces and objects in living wood, with a deliberately unfinished appearance, to recreate the effect of an object recovered from the past.

The Frame Trends Materia line is certainly the most decisive version of the four Frame Trends styles, with its three graphic variants with a grunge character that recalls the industrial and metropolitan style.

FRAME® TRENDS

Available sizes: **ETEREO**

Applicable on models: **FRAME - FRAME PLUS - FRAME MAX**

ETEREO

Effects of lights and shadows

It arises from the desire to lose the connection from reality, so hard and material, rising towards a more ethereal dimension, where you can relax your mind and body and rediscover your inner purity. The environments under the influence of this trend are made up of light colors, tending to white, combined with natural materials and transparencies that make the material impalpable.

Play of shades and lights with imperceptible contours merge exterior and interior and reconnect the outside, the natural element is present but in a pure and essential way. The furniture is minimal and using lights and shadows an intense and meditative atmosphere is created. With this influence the tree radiator versions of the Frame Trends Etereo line are born, which combine the already clean and neutral lines of the radiator with pure graphics that give purity and lightness to any environment, both living and bathroom.

FRAME® TRENDS

Available sizes: **POP MEMORY**

Applicable on models: **FRAME - FRAME PLUS - FRAME MAX**

POP MEMORY

Geometric style

This trend, which probably starts from the world of fashion, brings to light the graphic and chromatic styles of the world of Pop Art using comic slogans, bright colors, and icons typical of those years.

Interior design also intercepts other trends, such as "eclectic style" or "geometric style" in which we witness the combination of heterogeneous patterns with two dimensional and geometric shapes, stripes, polka dots and vibrant or contrasting colors such as black and white.

Three unique radiator variants for the new Frame Trends Pop Memory line, furnishing elements with an unmistakable style and a strong chromatic impact, capable of playing down and giving character to environment.

FRAME[®] GRAPHIC

The images of the **GRAPHIC SERIES (G)** have been carefully sized on the radiator to obtain the best graphic balance.

The ordered product will portray the image as presented in the catalogue.

All available solutions are available on the following pages.

This procedure streamlines the timing by allowing the immediate creation of the code number as shown on the opposite page.

GRAPHIC SERIES

Available sizes from page 374.

HOW TO ORDER CUSTOM IMAGES (P99)

- Choose between FRAME / FRAME PLUS / FRAME MAX (painted model).
- Select the size (H and L) and the connection type.
- Send your high resolution image (300 dpi- jpg, tiff, eps file), or your real picture. *(Material used for rendering will not be given back).*
- Send the relevant acquittance to Cordivari dealer *(All images send by customer must respect all relevant rules of copyright).*
- Our graphic team will size the desired image on the selected radiator.
- Approve the pdf preview and order.

HOW TO ORDER STANDARD IMAGES CORDIVARI

- Choose between FRAME / FRAME PLUS / FRAME MAX (painted model).
- Select the size (H and L) and the connection type.
- Choose a picture from our image gallery.
- Approve the pdf preview and order.

IMAGE GALLERY

Frame Picture radiators are made in painted mild steel using a unique and everlasting painting process. The Frame Picture painting process was awarded by ANVER (Italian Painters Association), during "Polveri" Exhibition (Verona, Italy), where it stood out for its innovation, high quality finishing and environment friendly approach.

ROSY GRAPHIC

URBAN

artwork **Mariano Moroni**

PAGE **216**

5 YEARS WARRANTY

MATERIAL:

Horizontal collectors in painted mild steel $\varnothing$ 38 mm
Vertical heating elements in painted mild steel 50x10 mm.

FIXING KIT:

Brackets, airvent, hexagonal tool, plugs and screws suitable for use on compact or hollow brick, installation notice.

PACKAGING:

The radiator is protected by a wooden crate and carton.
Use and maintenance notice included.

PAINTING PROCESS:

Painted with ecological epoxy. (Certificate DIN 55900-1,-2).
Thermal outputs certified in accredited laboratories in compliance with European norm EN442.

PRODUCT CERTIFICATES

P. max: 5 bar

T. max: 110° C

Available for central heating systems

Connections: n° 2 x G 1/2" - n° 1 G 1/8"

URBAN BLACK AND URBAN WHITE ARE AVAILABLE IN **HORIZONTAL VERSION** ON REQUEST.

Vertical and horizontal dimensions and graphic have been chosen with care, to offer an exclusive design radiator collection, easy to place in every contemporary living space.
We always suggest to indicate the connections when ordering.

Standard connections

Legend = In Out Airvent **H** Height **I** Pipe Centres **L** Width Connection

Always specify the type of connection needed when ordering.

Special connections (surcharge £ 50,00)

ACCESSORIES

Elegant square manual valve kit painted pure white R01

Copper connection $\varnothing$ 12/14/15
Art. Nr. 5991990310553
Price (ex VAT) £ **169,00**

Multilayer connection $\varnothing$ 16 x2
Art. Nr. 5991990310552
Price (ex VAT) £ **160,00**

Elegant square with thermostatic head valve kit, painted pure white R01

Copper connection $\varnothing$ 12/14/15
Art. Nr. 5991990310539
Price (ex VAT) £ **284,00**

Multilayer connection $\varnothing$ 16 x2
Art. Nr. 5991990310538
Price (ex VAT) £ **278,00**

Elegant square pipe centres 50 mm valve kit painted pure white R01 with thermostatic head - right

Copper connection $\varnothing$ 12/14/15
Art. Nr. 5991990310543
Price (ex VAT) £ **299,00**

Multilayer connection $\varnothing$ 16 x2
Art. Nr. 5991990310542
Price (ex VAT) £ **298,00**

Accessories and spare parts- see from page 394.

ELEGANT VALVES SATIN

Valve kit includes:

Valves and holder - thermostatic Head (not in manual version) - **Fittings for copper pipe (Ø 12/14/15) or multilayer pipe (Ø 16 x2).**

Available for: **LOLA - BABYLA - KELLY 38 - RIO® - STRADIVARI**

SQUARE - MANUAL

Copper connection Ø 12/14/15

Art. Nr. 5991990320209

Price (ex VAT) £ **210,00**

Multilayer connection Ø 16 x2

Art. Nr. 5991990320208

Price (ex VAT) £ **204,00**

SQUARE - WITH THERMOSTATIC HEAD

Copper connection Ø 12/14/15

Art. Nr. 5991990320197

Price (ex VAT) £ **377,00**

Multilayer connection Ø 16 x2

Art. Nr. 5991990320196

Price (ex VAT) £ **385,00**

CORNER (RIGHT) - WITH THERMOSTATIC HEAD

Not available on:
BABYLA - KELLY 38

Copper connection Ø 12/14/15

Art. Nr. 5991990320204

Price (ex VAT) £ **395,00**

Multilayer connection Ø 16 x2

Art. Nr. 5991990320202

Price (ex VAT) £ **408,00**

CORNER (LEFT) - WITH THERMOSTATIC HEAD

Not available on:
BABYLA - KELLY 38

Copper connection Ø 12/14/15

Art. Nr. 5991990320205

Price (ex VAT) £ **395,00**

Multilayer connection Ø 16 x2

Art. Nr. 5991990320203

Price (ex VAT) £ **408,00**

STRAIGHT - WITH THERMOSTATIC HEAD

Copper connection Ø 12/14/15

Art. Nr. 5991990320195

Price (ex VAT) £ **300,00**

Multilayer connection Ø 16 x2

Art. Nr. 5991990320194

Price (ex VAT) £ **317,00**

REVERSE - MANUAL

Only for:
LOLA

Copper connection Ø 12/14/15

Art. Nr. 5991990320207

Price (ex VAT) £ **253,00**

Multilayer connection Ø 16 x2

Art. Nr. 5991990320206

Price (ex VAT) £ **260,00**

ACCESSORIES - STAINLESS STEEL RADIATORS

ELEGANT VALVES SATIN

Price (ex VAT) £ 323,00

Price (ex VAT) £ 333,00

WALL-FIT VALVES

Available for: **FRAME VERTICAL - FRAME HORIZONTAL - SFERE - SFERE TRITTICO**

MANUAL WALL-FIT VALVE WITH THERMOSTATIC OPTION for connection type V14 - H08

1/2" Chrome

Art. Nr. 5991990311226

Price (ex VAT) £ 460,00

WALL-FIT VALVE WITH THERMOSTATIC HEAD for connection type V14 - H08

1/2" Chrome

Art. Nr. 5991990311227

Price (ex VAT) £ 499,00

FITTINGS FOR WALL-FIT VALVES

Copper connection Ø 12/14/15

Multilayer connection Ø 16 x2

Art. Nr. 5991170300001

Art. Nr. 5991170300002

Price (ex VAT) £ 47,00

Price (ex VAT) £ 39,00

For the wall-fit valve, three pairs of fittings are required, two for the body of the valve and one to be applied to the radiator.

FITTINGS FOR WALL-FIT VALVES

Copper connection Ø 12/14/15

Multilayer connection Ø 16 x2

Art. Nr. 5991170300001

Art. Nr. 5991170300002

Price (ex VAT) £ 47,00

Price (ex VAT) £ 39,00

For the wall-fit valve, three pairs of fittings are required, two for the body of the valve and one to be applied to the radiator.

The wall-fit valve can also be positioned far from the radiator; the important thing is that they are installed lower than the water inlet of the radiator.

ACCESSORIES PAINTED RADIATORS

ELEGANT VALVES KIT WHITE R01

Valve kit includes:

Valves and holder - thermostatic Head (not in manual version) - **Fittings for copper pipe (Ø 12/14/15) or multilayer pipe (Ø 16 x2) - Pair of cover rings for copper pipe (Ø 12/14/15) or multilayer pipe (Ø 16 x2).**

Available for: **ALL PAINTED MILD STEEL RADIATORS**

SQUARE - MANUAL

Copper connection Ø 12/14/15

Art. Nr. 5991990310553

Price (ex VAT) £ **169,00**

Multilayer connection Ø 16 x2

Art. Nr. 5991990310552

Price (ex VAT) £ **160,00**

SQUARE - WITH THERMOSTATIC HEAD

Copper connection Ø 12/14/15

Art. Nr. 5991990310539

Price (ex VAT) £ **284,00**

Multilayer connection Ø 16 x2

Art. Nr. 5991990310538

Price (ex VAT) £ **278,00**

CORNER (RIGHT) - WITH THERMOSTATIC HEAD

Copper connection Ø 12/14/15

Art. Nr. 5991990310548

Price (ex VAT) £ **303,00**

Multilayer connection Ø 16 x2

Art. Nr. 5991990310546

Price (ex VAT) £ **299,00**

CORNER (LEFT) - WITH THERMOSTATIC HEAD

Copper connection Ø 12/14/15

Art. Nr. 5991990310549

Price (ex VAT) £ **303,00**

Multilayer connection Ø 16 x2

Art. Nr. 5991990310547

Price (ex VAT) £ **299,00**

Details make the difference.

Tinta valves are the natural completion of your design radiator.

Minimalist style and captivating design, discretion of shapes, compactness and perfect integration with the color of the radiator.

From the valve group with thermostatic head to the integrated pipe cover ... with Tinta valves nothing is left to chance.

Because perfection is not a detail!

PRESSURE DROP OF THE CORDIVARI RADIATORS

Below is the diagram relating to the pressure drop of the indicated models of Cordivari Design.

The graph shows that the pressure drops of the heating elements are not significant compared to these of general installation.

TECHNICAL FORMULAS FOR PROFESSIONALS

THERMAL OUTPUT

The power of a radiator to exchange heat in the room where it is installed depends on many factors: shape, size, installation type....and so on and from a pure technical point of view, from the difference between its temperature and the air temperature around it.

It is known in physics that heat is transmitted spontaneously from a hot body to a cold body and this heat transmission is as big as the difference in temperature between the two bodies. In order to have comparable data between radiators thermal output, it is necessary to establish the difference in temperature between the radiator and the environment in which it has been fitted.

On this regard, EN 442 European directive refers to the temperature difference between the average hot water temperature inside the radiator and the room temperature where the radiator is fitted.

T_1 = delivery temperature

T_2 = back flow temperature

$$\Delta T = \left(\frac{T_1 + T_2}{2} \right) - T_a$$

T_a = room temperature

For example:

$T_1 = 75^\circ\text{C}$

$T_2 = 65^\circ\text{C}$

$T_a = 20^\circ\text{C}$

$$\Delta T = \left(\frac{75 + 65}{2} \right) - 20 = 50^\circ\text{C}$$

ΔT is established at 50°C and the radiator thermal output has to be determined by authorised laboratories according to standard procedures, defined by the European directive. As a consequence:

$$\Phi = K_M \cdot \Delta T^n \quad [\text{W}]$$

That it is called "Heating Body Typical Equation". Such equation allows to calculate the radiator thermal output according to whatever ΔT . In such cases, the radiator thermal output at a different ΔT than 50°C , is calculated as follows:

$$\Phi_{\Delta T} = K_M \cdot \Delta T^n \qquad \Phi_{\Delta T} = \frac{\Phi_{50}}{50^n} \cdot \Delta T^n$$

To be precise, the directive states that it is necessary to refer to the arithmetic temperature difference (ΔT above established) if as it happens in most cases the relation:

$$\mu = \frac{T_2 - T_a}{T_1 - T_a}$$

It is bigger or equal to 0.7. If the radiator is functioning with low water temperature or big temperature drops, the relations μ is lower than 0.7. In this case, it is necessary to change to the above stated relation the "temperature arithmetic difference" with the "temperature logarithmic difference", defined below:

$$\Delta T = \left(\frac{T_1 - T_2}{\ln \frac{T_1 - T_a}{T_2 - T_a}} \right)$$

FORMULAS

Example

If the nominal thermal output of one radiator stated in the catalogue is:

$$\Phi = 430[W] = 369,8[KCal/h]$$

and typical equation defined as:

$$\Phi = 3,2967 \cdot \Delta T^{1,2451}$$

and if we assume to make the radiator functioning at $\Delta T = 60^\circ C$ we obtain:

$$\Phi = 3,2967 \cdot 60^{1,2451} = 539,6[W] \Rightarrow 539,6 \cdot 0,860 = 464[KCal/h]$$

It is possible to state then, that going from $\Delta T = 50$ to $\Delta T = 60$ the radiator thermal output rise of 25,5%.

If we think to make functioning the same radiator according to the below conditions:

$$T_1 = 55^\circ C$$

$$T_2 = 35^\circ C$$

$$T_a = 20^\circ C$$

$$\mu = \frac{35-20}{55-20} = 0,429 < 0,7 \quad \text{et} \quad \Delta T = \left(\frac{T_1 - T_2}{\ln \frac{T_1 - T_a}{T_2 - T_a}} \right) = \left(\frac{55-35}{\ln \frac{55-20}{35-20}} \right) = 23,6^\circ C$$

Applying the above procedure, the thermal output $\Delta T 23,6^\circ C$ it is equal to:

$$\Phi = 3,2967 \cdot 23,6^{1,2451} = 168,8[W] \Rightarrow 168,8 \cdot 0,860 = 142,2[KCal/h]$$

We remind that in order to have the thermal output expressed in Kcal/h, it is necessary to multiply the value in Watts x 0.860.

Award 2001
I.D. Review, New York

Foglia® conceived in 1999 as first design heating element, where the sinuous shape meets the stainless steel's strength.

BRIDGE®

design **Mariano Moroni**

Bridge® embodies the concept of archaeological industrial production of objects for everyday use, in a modern key. A versatile radiator that fulfils its function of high efficiency heating and becomes a multi-purpose furniture element.

INOX STYLE

EXTRASLIM®

NEO DESIGN

RENÉE

design **Mariano Moroni**

"Comfortable, warming and protective shapes enhance every reflected image. The two groups of satin stainless steel heating elements seems to compete for the light while embracing a central mirror."

M. Moroni

UNI EN ISO 9001

Cordivari has always had among its goals: • Continual improvement of its products • Minimal environmental impacts • Achievement of total quality

Occupational Health and Safety Management System
UNI EN ISO 45001

CE RADIATORS MARK

CE radiators mark: main aspects

CE mark of radiators is the compliance to the minimal security requirements of European Directive of Standard 89/106/CEE and to the relevant EN 442-1-2-3. The CE mark for radiators is compulsory since 01/12/2005. The main requirements and tests:

- Thermal output with relevant heat loss and characteristic formula tested by a certified laboratory as CETIAT, MRT and HLK.
- Conformity to the directive 76/769/CEE regulating the use of dangerous substances during painting process.
- Fire resistance according to EN 13501-1
- Corrosion resistance, endurance in humid atmosphere (min. 100 hours)
- Pressure test

The symbol of CE mark, in conformity to the directive 93/68/CEE, together to other technical information, is applied on the product and on its packaging.

Main Standards regulating the construction of design radiators

UNI EN 442-1:2015
Radiators and convectors - Part 1 Technical specifications and requirements

UNI EN 442-2:2015
Radiators and convectors - Part 2 Test Methods and Rating

UNI EN 13501-1:2009
Fire class of products and construction parts.

CPR 305/2011
Regulation (EU) No 305/2011 of the European Parliament and of the Council of 9 March 2011 laying down harmonised conditions for the marketing of construction products and repealing Council Directive 89/106/EEC

93/68/CEE
CE mark.

PRODUCT CERTIFICATES

GENERAL SALES AND WARRANTY CONDITIONS

Sales of Cordivari's products are made according to the conditions listed below. Exceptions should be accorded in written by Cordivari Srl.

1. SHIPMENT

Goods are transported at buyer's risk and peril. Goods must be inspected at the moment of the delivery, in the presence of the carrier. The Buyer is required to check the integrity of the packaging, and if there might be missing or confused products. Any claim has to be immediately communicated to the carrier, signing the shipment's document with reservation of inspection.

Followingly, the Buyer shall send formal signalation to Cordivari Srl via registered email. Any signalation shall be sent within maximum 8 days from receipt of the goods. In absence of the aforementioned conditions, Cordivari Srl is cleared of any liability.

2. DELIVERY TERMS

Delivery terms are indicative. Failure to comply with the agreed delivery terms for any reasons will not entitle the buyer to any compensation, cancellation or modification of the order without Cordivari Srl prior consent. In case of strikes, lack in raw materials, or any other Act of God, Cordivari Srl reserves the right to decide proper countermeasures; in this case Cordivari Srl should be considered exempted from any responsibility. Shall ordered goods not be collected within agreed date, the same will be invoiced and stored with risks and costs charged to the customer.

3. DRY WEIGHT, MEASURES, SURFACES

Dry Weights, measures, surfaces, shapes, sizes, images and other figures related to the products are merely indicative and Cordivari Srl may at any time modify them.

4. ORDER CANCELLATION OR MODIFICATION

All orders are valid only if accepted in written form by Cordivari Srl.

No orders shall be cancelled even partially without the consent of Cordivari Srl. It will not be possible to modify the order when the production has already started. Any cost due to the modifications or cancellation will be of buyers charge.

5. RADIATORS/ACCESSORIES WARRANTY ON CONSTRUCTION DEFECTS

Cordivari Srl guarantees 10 years for all stainless steel radiators in the hot water version. For all radiators with circuits other than stainless steel, Cordivari Srl guarantees 5 years in the hot water version. For all electrical products, accessories and all residual items not contemplated in the conditions of sale, Cordivari Srl guarantees within the terms and for the period of time established by Directive 1999/44 / EC on certain aspects of the sale of consumer goods and associated guarantees.

- The warranty period starts with the date of the delivery of the material by Cordivari and this warranty is invalidated if the code of the radiator with the date is removed or modified.
- Warranty is only valid if Cordivari S.r.l. is notified by registered mail about the fault within 8 days from delivery.
- Warranty will take effect after having examined the defects and their causes in the Cordivari plant.
- The materials that have to be replaced or repaired must be shipped free of charge to the Cordivari plant.

Warranty will be applicable at the following conditions:

- materials must have been stored in good conditions and protected from the inclemency of the weather before installation;
- radiator did not have damages during transport, handling or installation;
- no alterations or reparations must be done without the prior consent of the seller;
- the buyer must have paid all the bills within the pre-established deadlines;
- if for cleaning none of those aggressive, corrosive, substances not suitable for radiators material have been used;
- the installation must have been done by professionals and in conformity with all instructions or standards written on the technical data sheets provided by Cordivari S.r.l.;
- no periodical emptying or charging of the system must have taken place;
- no aggressive chemical substances must have been added to the water of the system
- the working pressure and temperature shown in the catalogue must correspond to the current usage pressure and temperature;

- the caps and Accessories used must be original Cordivari materials;
 - radiator has not been connected to a system with open expansion tank;
 - the radiators must not have been connected to the sanitary water system;
- The warranty doesn't cover construction or dismantling costs to move the product from/to the installation place.

In case of using antifreeze, it should never be used pure, but it has to be diluted before including in the heating system.

In case of using anti-corrosion, it has to be compatible with all the material composing the heating elements of the radiator.

In case of preinstalled Cordivari's caps, each alteration of those caps will void the warranty of the product. Cordivari will not assume responsibilities for radiator assembled by other people and/even for caps which are not by Cordivari. Cordivari's warranty immediately cease in case of reparations or modifications on products without the previous agreement of Cordivari.

Heating system should be without any remaining of metals, calamine, grease, and without presence of gaz.

Before starting the heating system, make a rinse to clean any residual from the installation/working.

Warranty will not be valid in case of damages caused by electrical system.

The purchaser may not claim any other cost of direct or indirect damage to person or properties resulting from above confirmed defects.

6. PAYMENTS

All invoices have to be paid according to the agreed deadline. Any delay, even partial may suspend the planned deliveries. Overdue interest could be charged at current rates.

7. GOODS' PROPERTY

Cordivari Srl remains owner of the delivered goods until they are not completely paid. In case of failure to proceed to the payment, Cordivari Srl could ask for immediate restitution of goods and keep the paid partial amount as indemnity. Cordivari Srl can reserve the right to evaluate bigger damages caused by the outstanding amount.

8. PRICES

Prices are not binding and can be modified without communication and can be modified on basis of the modifications which could appear before and during delivery. Prices are intended on FCA-MORRO D'ORO Incoterm 2010 basis, except in case of written agreements. For some voluminous delivery Cordivari may charge some extra-costs. All prices indicated are V.A.T. excluded.

9. ORDERS/DELIVERY

The Order value is minimum £ 2.000,00. Given orders are binding to the buyer, who acknowledges of all our sales conditions.

Delivery is intended to customer warehouse; for any different destination please ask to our sales dept.

10. COURT AUTHORITY AND APPLICABLE LAW

For the following Catalogue and conditions only the provisions of Italian law will be used. For controversy, the Court of Teramo (Italy) shall have exclusive competence. Essential and trial law shall be exclusively Italian.

11. ORIGINAL VERSION

Being a translation, the Italian language is the only valid language for interpretation and conditions of this catalogue version.

© Copyright Cordivari S.r.l.

All rights such as reproduction, diffusion and translation are reserved. No part of this brochure can be reprinted or reproduced to any other form without a written authorization by Cordivari Srl. The present catalogue substitutes and invalidates all previous editions. Cordivari reserves the right to modify in every moment products and figures reported in the catalogue and has no responsibility for any press mistake.

CONDIZIONI DI VENDITA E GARANZIA

La vendita dei prodotti viene effettuata conformemente alle sotto elencate condizioni generali di vendita e garanzia. Ogni deroga è subordinata all'accettazione scritta da parte della Cordivari Srl.

1. SPEDIZIONE

La merce viaggia a rischio e pericolo del Committente, anche se viene spedita franco destino. La merce deve essere verificata all'atto della consegna, controllando l'integrità dell'imballo, articoli mancanti o sostituzioni in presenza del trasportatore. Ogni contestazione dovrà essere segnalata immediatamente al trasportatore/corriere firmando con riserva il DDT e confermando tale riserva a mezzo lettera raccomandata o posta certificata entro otto giorni dal ricevimento della merce.

2. TERMINI DI CONSEGNA

I termini di consegna si intendono approssimativi e comunque se il termine di consegna non potesse essere rispettato per qualsiasi motivo, il Committente non avrà diritto a esigere alcun indennizzo, pagamenti di penali, annullamento o modifica all'ordine conferitoci. In caso di eventi straordinari quali calamità naturali, scioperi, mancanza di materie prime, e cause di forza maggiore, la Cordivari Srl si riserva la scelta delle misure da adottare.

Se la merce ordinata non viene ritirata nel periodo concordato, questa verrà fatturata e immagazzinata con costi, rischio e pericolo a carico del committente.

3. PESI, MISURE, SUPERFICI

Pesi, misure, superfici, forme, dimensioni, immagini e altri dati sono indicativi e non impegnativi e possono subire delle modifiche o variazioni che la Cordivari Srl si riserva di apportare ai suoi prodotti senza preavviso.

4. ANNULLAMENTO O MODIFICA ORDINE

Senza il consenso scritto della Cordivari Srl, le ordinazioni conferite non possono essere né parzialmente né totalmente annullate o modificate. Non si accordano variazioni o modifiche quando sia già stata intrapresa la lavorazione. Eventuali spese derivanti dall'annullamento o modifica dell'ordine saranno fatturate al Committente.

5. GARANZIA RADIATORI/ACCESSORI

Per tutti i radiatori d'arredo in acciaio inox nella versione acqua calda la Cordivari Srl garantisce 10 anni. Per tutti i radiatori con il circuito diverso dall'acciaio inox, sempre nella versione acqua calda la Cordivari Srl garantisce 5 anni. Per i tutti i prodotti electric, gli accessori e per tutti gli articoli residuali non contemplati nelle condizioni di vendita la Cordivari Srl garantisce nei termini e per il periodo di tempo stabilito dalla legge nazionale di recepimento della Direttiva Garanzie 1999/44/CE.

- La garanzia decorre dalla data di consegna da parte della Cordivari e decade se viene manomessa e/o rimossa l'indicazione del lotto di produzione.
- I prodotti diventati inutilizzabili per difetti di costruzione saranno riparati o sostituiti gratuitamente franco Vs. destinazione.
- La condizione essenziale affinché la garanzia sia valida è che i difetti riscontrati siano notificati entro 8 (otto) giorni dal ricevimento della merce, per iscritto tramite raccomandata A/R o posta certificata.
- La garanzia sarà operante previo esame dei difetti e delle loro cause presso la sede della Cordivari Srl.
- Il materiale da sostituire o riparare dovrà essere consegnato franco magazzino presso la Cordivari Srl.

L'impegno di prestare la garanzia sussiste a condizione che:

- Il materiale sia stato immagazzinato in buone condizioni e al riparo dalle intemperie prima di essere installato;
- Il radiatore non abbia subito danneggiamenti durante il trasporto, le movimentazioni o l'installazione;
- Non siano state effettuate manomissioni o riparazioni dei prodotti senza l'autorizzazione della Cordivari Srl;
- Il compratore abbia effettuato il saldo dei pagamenti nei termini prestabiliti;
- L'installazione sia stata realizzata da personale qualificato e in conformità alle istruzioni e alle norme indicate sulla documentazione tecnica fornita dalla Cordivari Srl;
- Per la pulizia del radiatore non siano stati utilizzati detergenti aggressivi, abrasivi incompatibile con il materiale del corpo scaldante.
- Non siano stati effettuati svuotamenti o caricamenti periodici dell'impianto;
- Non siano state effettuate aggiunte di sostanze chimiche aggressive all'acqua dell'impianto, e siano stati rispettati i valori guida secondo la normativa UNI 8065 con opportuni trattamenti dell'acqua;
- La pressione e la temperatura di esercizio indicate sul catalogo corrispondano

alla pressione e alla temperatura massima di esercizio;

- Il circuito sia esente da residui di metallo, calamina, grasso e non ci sia presenza di gas. Prima della messa in funzione dell'impianto, eseguire un lavaggio per eliminare residui di lavorazione meccanica e/o residui in fase d'installazione.
 - I tappi e gli accessori utilizzati siano quelli regolarmente forniti dalla Cordivari srl;
 - I radiatori non siano stati collegati all'impianto dell'acqua calda sanitaria.
 - I radiatori non siano collegati ad impianti con vaso di espansione aperto.
- Nel caso in cui si utilizzi l'antigelo, esso non dovrà mai essere utilizzato puro, ma diluito prima di essere introdotto nel circuito.

Nel caso in cui si utilizzi un inibitore di corrosione, esso dovrà essere compatibile con tutti i materiali presenti nei corpi scaldanti.

In caso di prodotto con tappi premontati dalla Cordivari Srl, qualsiasi manomissione degli stessi, porterà fuori garanzia il prodotto. La Cordivari Srl non si assumerà comunque responsabilità su batterie assemblate da terzi, e/o con tappi e riduzioni assemblati da terzi. Qualora il Cliente esegua modifiche o variazioni di sua iniziativa sui materiali in contestazione senza il nostro preventivo benestare, decade immediatamente ogni responsabilità della Cordivari Srl.

La garanzia inoltre non opera in caso di anomalie o guasti dipendenti dalla rete d'alimentazione elettrica.

La garanzia non copre costi dovuti a demolizioni, opere murarie, lavori per il passaggio e la collocazione dei prodotti sia in ingresso che in uscita e la manodopera per eventuali sostituzioni di prodotto.

Cordivari Srl si impegna durante il periodo di garanzia alla sostituzione del prodotto reso e riconosciuto difettoso per accertati difetti di produzione, oltre a ciò il Committente non potrà vantare alcun altro risarcimento per spese di danno, dirette o indirette di qualsiasi natura a persone e/o a cose derivanti da detti difetti.

6. PAGAMENTI

I pagamenti delle fatture relative alle forniture dovranno essere effettuati entro i termini di scadenza stabiliti.

Il ritardo nel pagamento delle fatture, anche se parziale, dà luogo alla decorrenza degli interessi di mora nella misura del tasso corrente, oltre alla sospensione immediata delle spedizioni in corso e del processamento di eventuali ordini.

7. RISERVA DI PROPRIETÀ

I prodotti restano di proprietà della Cordivari Srl fino al pagamento dell'ultima rata di Price di merce consegnata.

In caso di inadempimento anche parziale del compratore la Cordivari Srl potrà chiedere l'immediata restituzione della merce trattenendo comunque le rate pagate a titolo di indennità salvo il maggior danno.

8. PREZZI

I prezzi non sono impegnativi e possono essere modificati senza preavviso.

I prezzi sono revisionabili in funzione delle variazioni che dovessero intervenire fino al momento della consegna. I prezzi si intendono resa franco stabilimento di Morro D'Oro (TE), salvo diversi accordi. I prezzi sono sempre riportati nel listino al netto di IVA. For models ingombranti la Cordivari srl si riserva di chiedere una partecipazione alle spese di imballaggio.

9. ORDINI/CONSEGNA

Il valore minimo per ordine è di £ 2.000. Gli ordini impartiti impegnano definitivamente il Committente che deve dichiarare di conoscere e accettare tutte le condizioni di vendita.

La consegna si intende esclusivamente presso la sede/magazzino del Committente. Richieste particolari del Committente avranno costi addizionali che verranno comunicati di volta in volta dal nostro ufficio commerciale.

10. FORO COMPETENTE

Per qualsiasi controversia derivante dal presente contratto o collegata allo stesso è competente il Foro di Teramo.
