

Technical Details

Twin Angled Manual Valve

MANUAL VALVE

All dimensions are in millimetres & dual dimensions are in inches.

Technical features

- Suitable for 15mm copper pipe
- Maximum working pressure: 10 bar
- Maximum temperature: 100°C
- Body construction: Brass

Installation of valve body

Following the diagram shown, apply appropriate PTFE to the threaded part of the radiator tail piece & apply appropriate joining compound when fitting compression fitting between the copper pipework and the valve body.

Installation should be undertaken by a competent plumber.

Unit 4 Genesis, Endeavour Drive, Basildon, Essex SS14 3WF
